

MY VOLCANO ADVENTURE

Dear Parents,

Your child is headed for Mindanao Island in the Philippines to experience the explosive power of God's Word!

My Volcano Adventure will guide your child to discover how we got the Bible—and why. He or she will learn about the Bible's authority, its message, and its purpose. The adventure reaches a peak when someone gets trapped by a flow of molten lava—and learns first-hand about the amazing power of God's Word! Your child will also be challenged to consider ways to encourage people around the world who are translating the Bible into other languages.

Here's how you can help make your child's experience even more rewarding:

- Pray for his or her continued spiritual growth—in character, knowledge, and conduct.
- Talk about the things that your child is learning. For starters, simply discuss the key questions for each lesson. They are listed on the sidebar of this letter.
- Encourage your child to memorize the Bible verses. Go ahead and learn the verses together!

Each lesson in this adventure focuses on developing your child's interest in and appreciation for the Bible. God gave His Word to transform us to be more like Jesus Christ. May this be true of you and your child as you complete My Volcano Adventure together!

His servant and yours,

Hebrews 4:12
